

Carpentry Days

***Planning and sawing, and nailing too.
Building a home for me and you.
Earning the money to pay the bills,
Getting by with minimum thrills.
Starting at seven, not finishing till late,
Putting food on the families plate.
A window and door fitted with ease,
Customer satisfaction, we aim to please.
Looking for work is an arduous chore,
But when it's there, it's never a bore.
Laying the floors and hanging the doors,
Cutting the skirting and fitting the drawers.
At the end of the day I'm tired and ache,
Then it all starts again when I wake!***
