

What If Your Time To Shine Is Now?

***Imagine you could walk a life limitless,
Wander under a thousand sunset's never going dim,
See the universe and let it leave you breathless,
Say what you long to say to her or him,
What if your time to shine is now?***

***Sing the song your heart would say you miss,
Live the dream you never thought was coming
Don't give the gold a miss,
Release the dream within,
Don't give your life a miss,
What if your time to shine is now?***

***You're the key to your greatest moment,
So let your gifts come out,
Not letting them stay dormant,
Go on decide you're not burnt out,
Let your light burn bright
What if tonight's your night?
What if your time to shine is now?***
